- I studied and learned PHP.net, 3Wchool,
from 2014 - 2023
- Al-Muthanna University, College of Agriculture
B.A in Agriculture
Completed in 2019

About Me

I am a 28-year-old web full-stack developer with a strong proficiency in HTML, CSS, JavaScript, PHP, MySQL, and Laravel. I am passionate about creating efficient and user-friendly web applications.

Professional Experience

- Collaborated with cross-functional teams to design and develop web applications, enhancing user experience and optimizing website functionality.
- Implemented responsive designs using HTML, CSS, and Bootstrap, ensuring seamless user experiences across various devices.
- Utilized JavaScript and jQuery to add interactive elements and improve user engagement on websites.
- Developed custom PHP modules and integrated them into the Laravel framework to enhance application performance and maintainability.
- Created and maintained MySQL databases, writing optimized queries to handle large datasets and ensure smooth data retrieval.
- Actively participated in brainstorming sessions and discussions to provide innovative solutions to complex technical challenges.

Projects

- E-commerce Website (Laravel)
 - Developed a feature-rich e-commerce platform using Laravel.
 - Integrated secure payment gateways and order tracking systems.
- Personal Portfolio Website
 - Created an interactive portfolio website showcasing projects.
 - Utilized CSS animations and interactive elements.
- Blogging Platform (PHP and MySQL)
 - Built a blogging platform using PHP and MySQL.
